

Flex Layouts

A few common arrangements that CSS Flexible Box Layout 1 makes trivial — equal-width cards, header bars with logo + actions, and vertically-centered hero strips.

Equal-width cards (justify-content: space-between)

Fast

Pure-PHP layout, no Chromium boot, no headless browser.

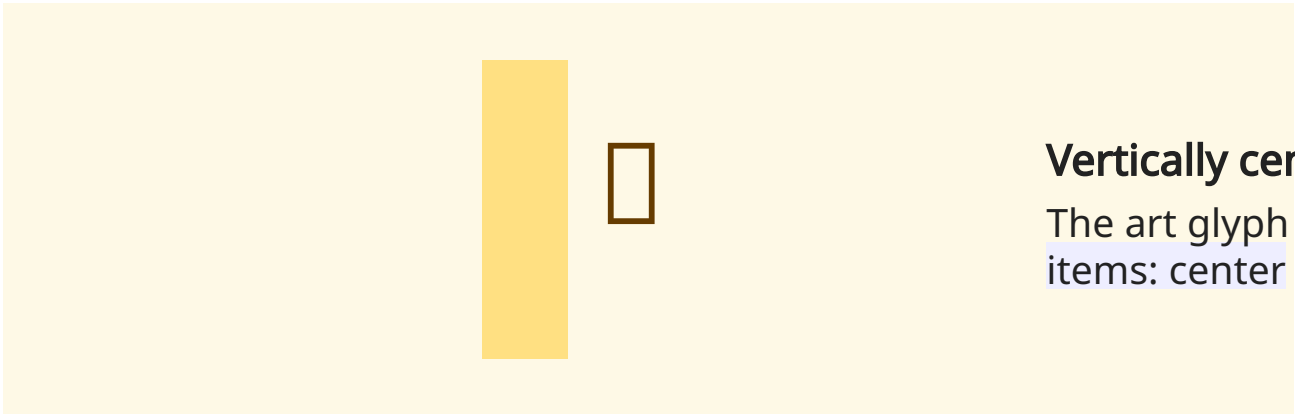

Spec-aligned

CSS 2.1 + selected Layout modules implemented

Header bar (logo left, actions right)

Hero strip (align-items: center)

Vertically centred

The art glyph and the c
items: center places bo
